Ch. Whitebreds Kissed By A Rose

Anibal and Pearl did something NO OTHER Bichon did in the ring, and she started doing it herself. Of course each handler picks the dogs up not to mess their neckline onto the table, BUT PEARL climbed onto HIS arm and laid there mid air till he picked her up AND put her down on the floor. People around the ring would gasp when she would hang there mid air and John and I, the first time we witnessed this went nuts, and of course it became her signature ringside. (You can see it in the collage on the back cover). To this day I JUST LOVE seeing it and even at home I'll catch her doing it when I am brushing her. Anibal and Pearl's bond was unmatched.

Pearl's three daughters, Angel, Polly and Gabby are stepping out this year in the show ring as well as her son, The Prince owned by Kendra

James of Kenningway Bichons. We are excited with Pearl's children. We were so fortunate enough to have such a wonderful homebred Bichon that was such an amazing show dog and to also have her produce amazing pups is an extra special bit of happiness.
